

Meet Day Setup Sequence

Print and laminate — keep in the carrying case

1 Charge STC-1 fully via USB-C (3 hours for full charge)

2 Set up Wi-Fi router — dedicated 2.4 GHz network, not public pool Wi-Fi

3 Power on STC-1 — place at pool edge with line-of-sight to both ends

4 Connect tablet to timing Wi-Fi; open Time Drops console app

5 Verify smiley face is smiling (😊) — controller connected

6 Click each PB-2 button once to wake them; distribute to timekeepers

7 Plug SA-1 into starting system; fire one test start to activate it

8 Open MM-Link on laptop — verify 'connected' shown in green

9 Export MeetProg.htm from Meet Manager → save to shared folder (C:\TimeDrops)

10 Verify tablet shows correct programme and top-right shows READY
